

## 250-8407-PRO DODGE PROMASTER INSTALLATION INSTRUCTION

Video Camera Connector Christmas Tree Protrudes Through Sheet Metal

Plug in pigtail to camera connector and then locate this connector in the header of the rear of the truck.

Rostra recommends the vehicle be programmed before camera installation. Once the camera is installed the display should have reverse camera. If the vehicle does not have camera at this point follow FORM #5512 for adaptor harness install into vehicle.
